

Strategy & Objective

The Credo Multi-Asset Portfolios provide investors with diversified exposure to global assets through mutual funds and ETFs. The portfolios apply Credo's value orientated investment philosophy across asset classes with the aim of providing long term exposure to both traditional and alternative assets. The 45/55 portfolio has a strategic asset allocation consisting of 45% in equities and 55% in all other asset classes – the actual portfolio allocation at any point in time will reflect tactical positioning based on prevailing investment opportunities.

Since Inception	6.0%	5.9%	5.6
1 Year	6.6%	6.3%	4.1

Market Commentary

Over the last month, corporate earnings season in the US has now begun in earnest, with 66% of companies beating analyst estimates. Meanwhile, the S&P 500 rose 8.3%. Following the September decision on interest rates and recent stabilisation of the Chinese economy, speculation over a December rate hike is mounting. In Europe, though policy remained unchanged, comments in October by Mario Draghi, the ECB president, fuelled hopes of further easing when the council reconvenes in December. The Stoxx 600 gained 8.0% over the month. The Chinese economy grew an estimated 6.9% in the third quarter, leaving it on track to meet its full-year growth target of around 7%. Meanwhile, the Chinese National Bureau of Statistics warned that the pace of economic reform must be accelerated, providing scope for further stimulus measures. In the meantime, the Shanghai Composite Index rose 10.8%.
