We are excited to confirm that we have enhanced our system capability around Trading Commissions, that enables you to charge Trading Commissions on standalone FX transactions. This new feature allows you to add a percentage fee (not a fixed monetary amount or a minimum amount) on top of Credo's FX fee.

The Fee Processing Solutions guide in the InfoHub has been updated to reflect the above enhancement.

This is hopefully a welcome new feature, and if you would like to update your commission labels then please speak with your Relationship Manager or Account Manager.
